---

full stack developer

Knowledgeable and adaptive web developer with a certificate in Information Technology (IT). Collaborative and detail-oriented team player with excellent communication skills and ability to work with a team to develop and launch web solutions. Proficient in HTML, CSS, JavaScript, Reactjs, Redux, Bootstrap, Styled components, Node.js, MySQL, MongoDb, C#, Git & GitHub and many more, and I'm more than willing to learn new technologies.

WORK EXPERIENCE

EDUCATION

certificate in Information Technology & Computer Science

Umfolozi TVET College • Richards Bay • 02/2019 - 11/2021

I did Information Technology & Computer Science at Umfolozi TVET college in 2019 - 2021, where we focused on object orientated programming using Visual Basic after that i took some time off to teach my self Web development using Mern Stack technologies and built some really cool projects.

PROJECTS

Luxurios watches • 02/2024 - 03/2024

Personal project

A personal project of mine, a website that sells luxurious beautiful watches it includes features like Authentication, fetching & displaying users from database , searching, filtering and sorting items, writing reviews, filtering and sorting reviews, accepting payments with paypal, and many more. here is the link to the project siya-watches.netlify.app

Siphosakhe Crech Website • 03/2024 - 03/2024

Siphosakhe Crech

Did a website for a local crech that was desperate to find sponsors to fund it projects & to prove that they're worthy of sponsoring & to show that they're a real day care they asked me to build them a website that demonstrates what the do here's the link to the website siphosakhecrech.netlify.app
